HELLA
VALUEFIT

BRIEF INFORMATION

S3000 LED

→ VALUEFIT LED worklight with extremely strong light output
→ Perfect for an optimal and large-scale illumination of the work area
→ Compact design for universal applications at highest lighting requirements

PRODUCT FEATURES

With its S3000 LED worklight, HELLA is introducing the most powerful VALUEFIT worklight on the market.
The light output of 3000 lumens is optimally suited for applications requiring lots of light and it is even comparable to xenon lighting performance. It therefore serves as the perfect solution for a lighting upgrade as it can replace even several halogen worklights with only a single LED worklight.

For an optimal illumination, a mounting height of 2.5 meters is recommended. This will ensure a homogenous and large-scale illumination of the working area, thus leading to a significant improvement of nighttime working conditions.

LED worklights are furthermore completely maintenance-free and offer a much longer service life than a halogen lamp.

HELLA VALUEFIT products are safe and reliable while enabling a cost-effective switch to LED technology.

HELLA

TECHNICAL DETAILS

Technical data	
Operating voltage/Rated voltage	10 – 52 Volt
Light source type	9 high-power LEDs
Power consumption	31 Watt
Light output	3,000 Lumen
Colour temperature	6,000 Kelvin
Tightness capability	IP 67
Type approval	CE, RoHS, ECE-R10
Housing	Aluminum die cast
Mounting	Upright and pendant
Connection	Deutsch connector, 800 mm cable
Recommended tilt angle	Close-range illumination: 15°
Recommended mounting height	2.5 m
Weight	760g
Bracket width	42 mm
Part number	1GA 357 109-002
